

Evaluating High-Stakes Litigation  
For Over 20 Years

WWW.FIRSTCOURT.COM

First Court has been organizing and conducting private jury trials in venues all across the United States for over 21 years.

We give lawyers a fair opportunity to present the highlights of their case, and we give jurors a safe opportunity to tell us what they honestly think.

Specifically, we provide each juror and client with a touchscreen computer, then link them together in a special courtroom network. Our exclusive software generates street smart feedback on the critical issues in your case, quickly and easily.

Using First Court spotlights the strengths and weakness in your case so that it can be resolved out of court — or tried more fairly if a settlement cannot be reached.

The Private Jury Trial is our number one product. It is not your typical mock trial. This option has saved our clients millions in settlements and played a large role in winning verdicts across the United States.

The Private Jury Trial typically lasts from 8:30 a.m. to 6:30 p.m. but can be tailored to meet your trial team's needs. Using our custom web technology, we select and pay 18+ jurors from the trial venue. You get a dry run through your arguments, and a chance to see how your key witnesses fare in front of real people. The Private Jury Trial gives you several individual feedback sessions throughout the trial. Using our exclusive software and Vulcan Interactive Laptops, First Court is uniquely positioned to capture the reactions of the case in real time as the trial attorneys make their arguments. You also get specific and immediate answers to key questions throughout the proceeding.
